CONFIDENTIAL

STATSPEC

25X1

5. [REDACTED] Theresa Cobb, on the staff of Representative Edwin D. Echeman (R., Pa.), called with a constituent request for the People's Republic of China atlas and the Soviet and Eastern Europe atlas. I explained to her the procedure for obtaining these for the public from the Government Printing Office and added that if the Congressman wished some maps, that we would be happy to try and provide them for him.

25X1

6. [REDACTED] Called Tim Ingram, Staff Director, Subcommittee on Government Information and Individual Rights, House Government Operations Committee, to advise him of the Director's letter of 1 August 1975 to Chairwoman Bella Abzug (D., N.Y.) that we would provide the documents requested by the Subcommittee yesterday after they had been reviewed and the names of Agency officers under cover and other material which Mr. Colby is required to protect from disclosure by law had been removed, but that we would not complete this by this morning but would provide them with the results hopefully by some time next week. I explained [REDACTED] OGC, personal plans involving the marriage of his son and that since Representative Paul McCloskey (R., Calif.), who had levied the requirement, was on his way to China, I suggested that we might be able to relieve [REDACTED] of appearing today. Later, Ingram called and said he could not get in touch with Chairwoman Bella Abzug (D., N.Y.), who was enroute to the hearing, to determine if the session should be cancelled and I said under those circumstances we would be there.

25X1

7. [REDACTED] Stuart Statler, Minority Counsel, Permanent Subcommittee on Investigations, Senate Government Operations Committee, called to find out if we had some final figures on Soviet grain production "as promised by Messrs. Cary and Proctor yesterday." I told him that I thought our experts were still working on the problem, but he said I perhaps was two hours behind the times since a good source of his had said that a figure of 185 tons had already been determined. I told Statler I would check and Mr. Proctor said he would call Statler.

CONFIDENTIAL

SECRET

25X1 [redacted]
25X1 II. [redacted] Mark Kleiman, Legislative Assistant to Representative Les Aspin (D., Wis.), called to review the statutory, constitutional and Executive Order basis for classification systems and the difference between security clearance for determining suitability and loyalty for handling classified material and the controlling of access to sensitive compartmented information in furtherance of the need-to-know principle. Kleiman said he would review the citations and other works I had cited for him and in response to his query, I told him he could call [redacted] OGC, for any further elaboration.

25X1 12. [redacted] Called Vernon C. Loen, Deputy Assistant for Legislative Affairs (House) at the White House, and determined State Department will handle the Executive Branch response to Representative Charles Diggs' (D., Mich.) 29 June 1975 cable to multiple addressees, including CIA, on U.S. dealings with Zaire. No action is required of CIA.

25X1 13. [redacted] Called Werner W. Brandt, Legislative Assistant to Representative Thomas Foley (D., Wash.), Chairman of the House Agriculture Committee, by way of follow up to the Director's conversation with Chairman Foley last night. I told Brandt I just wanted to be in touch with him in view of the cancellation and to advise him we had also been in touch with the Majority and Minority Staffs of the Senate Permanent Investigations Subcommittee, Senate Government Operations Committee, on the same subject. I explained we had briefed the Majority Staff last week but the figures used in that briefing were now inaccurate and would have to be changed. I told him I just wanted him to understand (should he hear of our session with the Permanent Investigations Subcommittee staff) that we were not refusing a briefing of the Committee while talking with another group. Brandt said he understood completely but asked if it would be possible for Robert Bor, Hyde Murray, Gene Moose and himself to come to the Agency and sit down with [redacted] in the next few weeks to discuss the whole situation. I said I was sure this could be arranged and I would be back in touch with him when we had some relatively firm figures to talk about.

25X1 14. [redacted] Called Bill Ashworth, Senate Foreign Relations Committee staff, by way of follow up to his conversation with [redacted] about references by Brezhnev to the "typhoon." I told him this was not an allegorical reference, that in fact the Soviets do have some sort of follow-on program to their latest submarine but we have virtually no information on this. I mentioned, however, that the Soviets had made reference to the term "typhoon" before.
